Our Approach

Edizen stands prepared to help Federal and State agencies of all sizes improve efficiencies and achieve mission critical goals by developing the performance potential of individuals and teams.

Just as a whole is often more than sum of its parts, the Edizen approach is based on the belief that organizational performance is more than simply the sum of skills and behaviors of its workforce. True performance is a complex equation made up of leadership abilities, team dynamics and individual contributions. By improving the performance potential of individuals, teams and leaders, organizations can become better positioned to achieve and exceed their goals.

Our methodology has been developed and refined after many years of managing large-scale programs. Good program management ensures that the work efforts achieve the strategic goals of the organization. This involves setting and reviewing objectives, coordinating activities among multiple projects and ensuring there is no redundancy of effort. Therefore, Edizen always assigns a Program Manager to oversee the efforts of the entire contract, as well as project managers for specific tasks or functional areas.
GSA Approved Services

Integrated Consultation Services (SIN 874-1)

Edizen provides expert advice, assistance and guidance in support of agencies’ management, organizational and business improvement efforts. Scope of work may include studies, analyses and reports documenting any proposed developmental and consultative or implementation efforts.

Examples of consultation include, but are not limited to: strategic, business and action planning, systems alignment, cycle time, process and productivity improvement, organizational assessments, high performance work, leadership systems, performance measures and indicators program audits and evaluations.

Coaching Services

Edizen’s professional coaches create a risk-free environment in which individuals can define who they are as leaders, find greater self-awareness and take their careers to the next level. It’s a comprehensive process that involves looking at career and personal goals, leadership and management behaviors, personal strengths and areas in need of development.

We work one-on-one with individuals and encourage them to embrace a mindset of continuous learning. With this attitude, they are able to develop and strengthen skills in essential areas which lead to improved job performance and overall goal achievement.

Individuals who work with Edizen coaches can expect to gain new insights on workplace and personal challenges; discover new ways of thinking about decision making, delegating, leading, and other essential management and life skills; enhance their interpersonal skills; and find greater confidence in work and life.

Edizen Coaches are certified in a variety of assessments that have been used in the federal government with excellent results including:

- 360 Degree Assessments (20/20, Benchmarks, Denison, PEI, Assessment Plus, LEI)
- Myers-Briggs Type Indicator (MBTI) and Personal Style Inventory (PSI)
- Thomas-Kilmann Conflict Mode Instrument (TKI)
- DISC
- FIRO-B
- StrengthsFinder 2.0
- Hay Group ESCI (Emotional and Social Competency Inventory)

Facilitation Services

Critical Thinking/Problem Solving:

Our facilitation services help organizations to improve collaboration, innovation, consensus building and ability to deal with change. One of the key methodologies used to achieve these goals is Action Learning. Our Action Learning Coaches are all certified through the World Institute for Action Learning (WIAL) and
facilitate team meetings that solve real and current organizational problems as well as develop the leadership competencies of team members.

**Career Path Roadmaps**

Career Path Roadmaps help organizations to recruit and retain a highly skilled workforce. Edizen analyzes each job function through focus groups, interviews and a review of written documentation. Career Path Roadmaps are then designed to help employees be more proactive in their career planning. Recommended training and development opportunities are included. Edizen creates linkages from one job function to another so employees not only see how to progress in their current career, but also how to prepare to transfer to another similar or related career.

**Mentoring**

Mentoring is low cost leadership development modality that has a very high return on investment. Edizen facilitates meetings with stakeholders to understand the desired outcomes for the program. Our experienced consultants then design the program, match mentors with protégés and facilitate sessions that provide a mentoring framework and guidelines.

**Survey Services**

Services shall provide expert consultation, assistance, and deliverables associated with all aspects of surveying within the context of MOBIS. Contractors shall assist with, and/or perform all phases of the survey process to include, but not limited to: planning survey design sampling; survey development, pretest/pilot surveying, defining and refining the agenda, survey database administration, assessing reliability and validity of data, determining proper survey data collection methodology, administering surveys using various types of data collection methods and analyses of quantitative and qualitative survey data.

Edizen administers standardized surveys, such as organization culture surveys and 360 degree surveys, as well as customized surveys for specific client needs. Our repertoire includes interactive online survey tools that function much like a focus group and gather extremely rich data.

**Training Services (SIN 874-4)**

At Edizen, we’re about success. We’re about purpose. We’re about developing leaders who can lead themselves and others to greater achievement. Edizen professional consultants offer customized and off-the-shelf management training as well as customized programs including:

- Leadership Development Workshops
- Workforce Training Programs
- Team Development Workshops

Edizen’s work with government clients is supported by our Performance Delivery Model, which provides a framework of proven tools and methodologies that we use in designing customized solutions for each client’s unique organizational needs.
Training Programs

Workshops are offered in two design options:

- Modified "off the shelf" training which takes an established program and tailors content to reflect an organization's unique culture and needs
- Highly customized programs for a specific team, department, division, or organizational change initiative such as changes in processes, technology, organizational structure, service/product lines, mergers, and acquisitions.
